The FBC, the world's leading event dedicated to innovative solutions in wood, biobased, and reused materials, showcases each year the latest research and applications in tomorrow's construction to tackle climate change.

In 2025, the 14th edition brought together

The International Wood Construction Forum is a space of convergence.

The satisfaction survey conducted in March 2025 among participants of FBC 2025 reveals that 97% are satisfied with the 14th edition of the Forum, and 94% believe that the conferences reflect current market trends.

"This exhibition has been like a highlight, where we collectively and definitively demonstrated that we are at the heart of the solutions to build a sustainable world for tomorrow!"

YANNICK CHAMPAIN • Atelier VIVARCHI

"Very happy to have been able, with our elected officials, to highlight the actions of the City of Paris in favor of Timber and Biobased materials."

CAROLINE HAAS • Director of Public Construction and Architecture, City of Paris

"A impressive wealth of exhibitors and conferences, perfectly suited to the decarbonization expected by the sustainable development goals outlined in the Paris Agreement, RE2020, the Pact 2030, and the 2050 energy strategy."

NICOLAS BEGUERIE • Investimmo

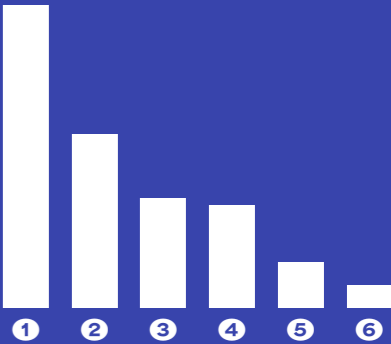

"The eco-materials sector plays a strategic role not only in achieving decarbonization goals but also in creating architecture adapted to contemporary challenges."

DAMIEN BOTTEGHI • Director of Habitat, Urban Planning and Landscapes

A large gathering space where all the stakeholders in construction, renovation, and timber and biobased development come together to innovate and collectively build the new climate-resilient and sustainable architecture :

- 1 • 40%**
Project managers, architects, urban planners, engineers, designers, consulting firms, economists
- 2 • 23%**
Builders, carpenters, interior designers, construction companies, secondary works & development
- 3 • 14,5%**
Industrials, distributors, technical solutions, IT, digital and energy innovations
- 4 • 13,5%**
Private & public project owners, developers, real estate promoters, investors & banks, elected officials, mayors, landlords, metropolitan areas, local authorities
- 5 • 6%**
Diagnostics & certification, research, education & training
- 6 • 3%**
